PROFESSIONAL SUMMARY

Frontend web and mobile developer with hands-on experience shipping production applications across e-commerce, legal-tech, and event-management domains. Skilled in React, React Native, and WordPress/WooCommerce, with a track record of taking projects from design integration through to live deployment. Brings a legal background (LL.B, Lagos State University) that sharpens attention to detail, compliance awareness, and structured problem-solving — particularly valuable on projects with regulatory or process-driven requirements, such as case-management systems.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML5, CSS3

Frameworks & Libraries: React, React Native, Vite, Tailwind CSS, NativeWind, SASS

CMS & E-commerce: WordPress, WooCommerce, Elementor, Paystack integration

Backend & Data: Supabase, REST API integration, CSV/data pipeline processing

Tools & Platforms: Git & GitHub, Figma-to-code, Node.js, Expo, Web hosting & deployment, Testing

Other: Mobile hardware diagnostics & repair

PROFESSIONAL EXPERIENCE

Lead Frontend Engineer | *Lexort (case-filing platform)* 2026 – Present

- Leading frontend development of Lexort, a platform built to simplify and digitize case filing in the Nigerian legal space.
- Built the interface using React and Vite, translating Figma designs into production-ready, responsive UI.
- Integrated backend APIs and designed workflows for multiple user roles, including Admin, Chief Judge, and Clerk.
- Project: lexort-admin.vercel.app

Frontend/Web Developer | *Crownbabies (client e-commerce project)* May 2026 – Present

- Built and continue to maintain a full e-commerce website for a maternity, baby, and fashion retail client using WordPress and WooCommerce.
- Customized site design and pages with Elementor; configured the Paystack payment gateway for local transactions.
- Set up product categories, shipping rules, navigation menus, and required plugins.
- Designed and executed a large-scale product catalog import pipeline — processing 370+ products across 6 batches from raw WhatsApp-exported data, with automated image-matching and generation of WooCommerce-ready CSV import files.
- Site: crownbabies.com

Freelance Coding Instructor January 2026 – Present

- Design and deliver a progressive, beginner-friendly coding curriculum (Scratch) for a one-on-one student, with weekly structured assignments.

Developer | *Law Dinner Ticketing Platform* October 2025

- Built a web application for law dinner ticket and code generation, from UI to backend integration, using React and Vite.
- Integrated Supabase as the backend database and implemented a scheduled ping mechanism to keep the free-tier project active.
- Project: lawdinner.vercel.app

Frontend Developer | *Monoche (photobook business landing page)* December 2025

- Designed and built a landing page for a friend's photobook business.
- Project: monoche.vercel.app

Team Lead, Coding Mentorship | *YE Network* August 2025 – November 2025

- Served as volunteer team lead within a mentorship program connecting participants with industry experts and professionals.

Intern, Frontend Developer | *SkyeStudio* March 2024 – 2025

- Developed and maintained responsive web and mobile applications using modern JavaScript frameworks.

Mobile Hardware Engineer | *Freelance* May 2020 – Present

- Diagnose and repair hardware issues in smartphones and tablets.

- Provide technical support and training to clients on device usage and maintenance.
- Conduct hardware testing and quality assurance on new and refurbished devices.

EDUCATION

LL.B (Hons), Law 2021 – 2026

Lagos State University, Lagos, Nigeria
